

## Technical Specifications

### FuelCloud Box

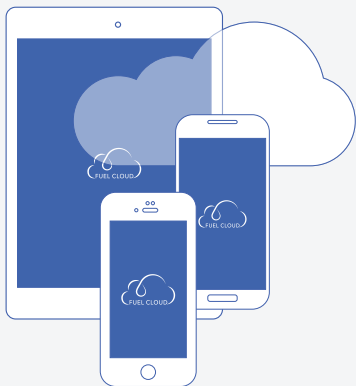

- Power Requirements: 80-277 VAC, 50/60 Hz, 12VDC, 250 watts
- Operating Temperature Range: -40° F to 150° F (-40° C to 65° C)
- Graphics display: 2.9 inch monochrome 64x128 pixel
- 2 Gb micro SD storage (expandable)
- Communications: RS485, RS232, USB, Ethernet
- Wireless: 802.11 B/G, Bluetooth 4.0

### Pump Control

- Relay Contact Rating AC: 240 VAC; 20 A
- Relay Contact Rating DC: 12 VDC; 20 A
- Pulser Type: Single Channel
- Pulser Input: Electronic (5-78 VDC)
- Maximum Pulse Speed: 0 - 300,000 Hz

### Software

- Cloud-based server
- App based authorization
- Android & iOS
- Internet Browser Options: Chrome, Firefox, Internet Explorer, Safari, Edge
- Live firmware updates
